

# INTRODUCING: One of the most rewarding things you'll do **all year**

Have fun with your skill and passion  
Join the crew and make a difference!

We train, you coach  
Smiles all around

**Teen crashes and teen-driving fatalities have long plagued American families.**

The mission of Tire Rack Street Survival is to *significantly reduce these tragic accidents.*

Our instructors play a critical role in fulfilling that mission.

**Instructing at Street Survival is one of the most rewarding things we do.** It's about using our passion, knowledge and skills to give back to the community.

We enjoy a special camaraderie. No matter our age, gender or the kind of car we drive, we share a bond because of the great contribution we're making to the next generation.

**It's a great feeling at the end of the day** when parents get in the passenger seat and see just how much progress has been made. They feel a lot more confident in their child's driving ability. It feels pretty good to know the impact you've had on that family.

**Are you a driving enthusiast?** Learn more at [stlbmwcca.org](http://stlbmwcca.org) and contact Chris-sy Price [[price63304@gmail.com](mailto:price63304@gmail.com)] to sign up, preview an event or arrange for a ride-along to see what's involved. The bar isn't all that high, but the experience is worth the commitment.
